**DETAILED ACTION**

***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-21 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The instant claims are indefinite for the following reasons.

- (a) In claim 1, lines 8-9, "wherein said second mirror includes deep elemental traps that form a current confinement structure in said second mirror" fails to define the structure necessary to accomplish the intended result. It is not clear as to what structure applicant intends to claim and thus claims 1-8 are rendered indefinite.
- (b) In claim 9, lines 9-10, "wherein said spacer includes deep elemental traps that form a current confinement structure" fails to define the structure necessary to accomplish the intended result. It is not clear as to what structure applicant intends to claim and thus claims 9-15 are rendered indefinite.
- (c) In claim 16, lines 9-10, "wherein said array includes a plurality of deep elemental trap regions that form current confinement structures that guide current from said plurality of second contact layers into said plurality of active regions" fails to define the structure necessary to accomplish the

intended result. It is not clear as to what structure applicant intends to claim and thus claims 16-21 are rendered indefinite.
